OCCUPATIONAL HEALTH & SAFETY

"THERE ARE NO EXCUSES"

There are no excuses when it comes to workplace health and safety.
We have an uncompromising stance on personal & public safety and wellbeing as well a focus on always improving our OH&S understanding and implementation of best practices.

Strictly adhering to statutory obligations and completing 'safe to start' checks are just part of our procedures and commitment to ensuring the safety of staff, contractors, clients and members of the public.

Our administration and project management teams work effortlessly to ensure our compliance with statutory OHS requirements - in addition to our in-house OHS processes. Customised OHS management plans are created for every project and each of our staff members hold safety & operation competency tickets relevant to their roles and responsibilities.

We are a CM3 prequalified company and hold inductions with major shopping centres around Australia.

Safety comes first at Lamar.
